

A.1

Find the molecular weight and cost per grams of the following biochemicals.

- Human insulin
- Bacitracin
- Ethanol
- Citric acid
- Lactic acid
- Riboflavin
- Phospholipase C (*B. cereus*)
- β -endothelial cell growth factor (human)
- Ribonuclease (bovine)
- Lysozyme (egg white)
- Cellulase
- Threonine
- Hemoglobin (bovine)
